CIRCULAR: MANDATORY BIOMETRICS UPDATE

Date 12-09-2026

Dear Parents,

This circular is an important reminder regarding the **Mandatory Biometric Update (MBU)** for your child's Aadhaar details, as mandated by the Unique Identification Authority of India (UIDAI).

Why is this update required?

UIDAI guidelines stipulate that a child's facial photograph, fingerprints, and iris scans must be updated at two critical developmental stages:

1. **First Update (Ages 5 to 7):** When the child turns 5 years old.
2. **Second Update (Ages 15 to 17):** When the child turns 15 years old.

Updating these details ensures that student records remain valid for official identification, educational scholarships, government welfare schemes, competitive examinations, and future academic admissions.

Action Required:

If your child falls into either of the age brackets mentioned above and has not yet completed their mandatory biometric update, we request you to complete this process at the earliest.

- **Where to go:** Visit any nearest authorized Aadhaar Seva Kendra, postal office, or designated bank offering Aadhaar enrollment services.
- **Cost:** Mandatory Biometric Updates for children aged 5–7 and 15–17 are processed **free of charge** by UIDAI.
- **Documents required:** Please carry the student's existing Aadhaar card and a valid proof of identity/address (or Parent/Guardian's Aadhaar for verification).

Submission of Updated Proof to School:

Once the biometric update is successfully completed, kindly submit a photocopy of the acknowledgment slip to your child's respective Class Teacher on or before **21-09-2026** for our administrative records.

We appreciate your prompt attention and cooperation in helping us keep student records accurate and up-to-date.

Principal
